CHRONOLOGICAL TABLE

Nº I - JANUARY

	Page
Editorial	2
Union Activities	3
The Story of ITU Technical Co-operation (6)	
• Telecommunication training in Iraq	12
Conferences or meetings external to the ITU	15
Ideas and Achievements	
• Nigerian microwave and VHF network	19
• Survey of medium wave propagation in tropical Asia	20
• New marine radar will outlaw sea collisions	21
Essential characteristics of the metal sheaths of trunk cables for protection against external electromagnetic fields	
• M. I. MIKHAILOV and L. D. RAZUMOV	23
Simplified method for calculating the supplementary attenuation due to auroral absorption for distances less than 4000 km	
• P. BRONZINI	29
There is always a substitute for spectrum	
• H. J. LEVIN	33
The Journal seventy-five years ago	36
Basic indices for ionospheric propagation	37
News	38
Review review	45
Official Announcements	46
ITU Publications	47

No. II - FEBRUARY

	Page
Editorial	50
Union Activities	51
Conferences or meetings external to the ITU	57
Ideas and Achievements	
• OAO	61
• Large cylindrical radio-telescope at Ootacamund	62
• Pioneer-D	63
Western Union International — Pioneers in computerized telex operation	
• P. J. KLEIN	66
The European broadcaster's attitude toward satellite technology	
• O. RYDBECK and E. W. PLOMAN	72
The Dioscures project — system of telecommunications, air traffic control and navigation by satellites	
• B. MANUALI	79
The Journal seventy-five years ago	88
ITU Conferences — XIX	
• 24. European Radio Conference — Prague, 4-13 April 1929	89
Basic indices for ionospheric propagation	90
News	91
New products	97
Review review	99
Tenders	100
Books	101
Official Announcements	101
ITU Publications	103

Nº III - MARCH

	Page
Editorial	106
Union Activities	107
Conferences or meetings external to the ITU	109
The Journal seventy-five years ago	110
Ideas and Achievements	
• European HEOS-A satellite	111
• Intelsat-III	112
• Icarus measurements by radar	113
• Technical training school at Dieburg	114
Some aspects of international co-operation in space telecommunications	
• I. PETROV	115
Colour videophone	
• G. VALENSI	117
Software versus hardware	
• R. A. CLINE	128
ITU Conferences - XX	
• 25. International Consultative Committee for Long-Distance Telephone Communications (CCI) — 6th Plenary Assembly — Berlin, 3-10 June 1929	131
Basic indices for ionospheric propagation	132
ITU Cinema Library	133
News	134
New Products	138
Review review	140
Books	141
Telephilately	142
Official Announcements	144
ITU Publications	145
List of satellite launchings in 1968 (<i>insert</i>)	
Chronological Table and Analytical Table for 1968 (<i>insert</i>)	

Nº IV - APRIL

	Page
Editorial	148
Union Activities	152
Ideas and Achievements	
• Solar observatory OSO-V	154
• International satellite for ionospheric studies — ISIS-1	155
• Large colour television pictures produced by laser system	156
A PCM-FDMA demand assigned satellite multiple access experiment	
• J. G. PUENTE	158
The " fonotex " service	
• P. F. ERIKSEN	171
Simplified method for calculating auroral absorption for distances of over 4000 km	
• V. VLADIMIROV	175
ITU Conferences - XXI	
• 26. International Consultative Committee for Telegraph Communications (CCIT) — Second meeting — Berlin, 10-17 June 1929	181
The Journal seventy-five years ago	182
ITU Cinema Library	183
Basic indices for ionospheric propagation	184
News	185
New Products	190
Review Review	192

No. V - MAY

	Page
Editorial	200
Union Activities	201
The Story of ITU Technical Co-operation (7)	
• Training of technical staff for PT&T Ministry in Kuwait	205
Conferences or meetings external to the ITU	209
Ideas and Achievements	
• Optical communications experiments at 6328 Å and 10.6 μ	210
• Mariner mission to Mars	216
• New radio telescope in the United Kingdom	220
The Journal seventy-five years ago	222
The Doppler effect in radio astronomy	
• A. J. HIGGS	223
The effect of income and social class on residential telephone demand	
• B. WELLENUS	227
Evolution of the international routing plan	
• I. A. NEWSTEAD	231
ITU CONFERENCES - XXII	
• 27. International Technical Consultative Committee on Radiocommunications (CCIR)—First meeting—The Hague, 18 September-2 October 1929	235
Basic indices for ionospheric propagation	236
ITU Cinema Library	237
News	238
New Products	244
Review Review	245
Books	247

ITU Publications	249
ITU's world-wide Technical Co-operation (<i>insert</i>)	

No. VI - JUNE

	Page
Editorial	252
Union Activities	255
Conferences or meeting external to the ITU	260
Ideas and Achievements	
• Meteorological satellite Nimbus-III	265
• Computer simulation of semi-conductor devices	267
Considerations on the types and essential features of telecommunication technique training establishments set up with Special Fund assistance (part two)	
• W. J. FIJALKOWSKI	268
The acquisition and use of ionospheric data for prediction and other practical applications	
• W. R. PIGGOTT	273
Multichannel transmission by tropospheric scatter	
• R. FREEMAN	280
The Journal seventy-five years ago	286
ITU Conferences - XXIII	
• 28. International Consultative Committee on Long-Distance Telephone Communications (CCI) - 7th Plenary Assembly - Brussels, 16-23 June 1930	287
Basic indices for ionospheric propagation	288
ITU Cinema Library	289
News	290

No. VII - JULY

	Page
Editorial	304
Union Activities	305
Conferences or meetings external to the ITU	310
Ideas and Achievements	
• Fifty years of co-operation between the Nordic countries in the field of telecommunication (1917-1967)	313
• Improved television reception: antenna measurements by helicopter	314
• The Tunisian telecommunication programme for 1969	314
The Journal seventy-five years ago	316
Economic factors influencing the break-even relations between satellite and terrestrial point-to-point communication	
• S. G. LUTZ	317
The development of fully filled cables for the telephone distribution network	
• N. S. DEAN	329
Reflections on the plan for development of telecommunication networks in Latin America on the eve of the fourth Latin America Plan meeting	
• M. MALEK-ASGHAR	337
ITU Cinema Library	341
Basic indices for ionospheric propagation	342
News	343
New Products	349
Review Review	350
Official Announcements	351
ITU Publications	353
Eighth report by the ITU on telecommunications and the peaceful uses of outer space (<i>insert</i>)	

No. VIII - AUGUST

	Page
Editorial	356
Union Activities	359
Conferences or meetings external to the ITU	366
Ideas and Achievements	
• Computer aided design of microcircuits	367
• Commercial television aids NBS standard broadcasts	368
Apollo-11 communications	
• NASA	369
Underwater communications	
• J. R. DEAN	374
Safety and radiotelephone communications on the Great Lakes	
• J. W. MANNING	379
The Journal seventy-five years ago	384
ITU Cinema Library	385
Basic indices for ionospheric propagation	386
News	387
New Products	390
Review Review	391

Table of Committees, Study Groups and Working Parties of the CCIs (*separate sheet*)

No. IX - SEPTEMBER

	Page
Editorial	402
Union Activities	405
A report by the ITU	
• Technical co-operation in telecommunications in 1968	407
Conferences or meetings external to the ITU	420
Ideas and Achievements	
• Explorer-41 (IMP-7)	424
• Special exchange for the Stockholm taxi service	425
Mobile communications via satellite	
• M. W. CARDULLO and C. DORIAN	426
International accounting in the international automatic telephone service	
• Z. RAFALOWICZ	437
Present and future airline telecommunications requirements	
• M. DEKKER	442
The Journal seventy-five years ago	448
ITU Cinema Library	449
Basic indices for ionospheric propagation	450
News	451
New Products	456
Books	457
Official Announcements	457
ITU Publications	459

No. X - OCTOBER

	Page
Editorial	462
Union activities	467
Conferences or meetings external to the ITU	470
Ideas and achievements	
• Error in electrostatic actuator calibration of condenser microphones	471
• Simple prism may be the key to miniature laser circuits	473
• Africa "live"	474
A new concept in domestic satellite communications	
• R.P. GIFFORD	475
The land mobile services in the Federal Republic of Germany	
• K.R. BINZ and G.J. STRUNZ	480
Electronic automatic switching equipment with recorded programme control — the Péricles project	
• L.J. LIBOIS and P. LUCAS	490
ITU Cinema Library	499
The Journal seventy-five years ago	500
Basic indices for ionospheric propagation	501
News	502
New Products	509
Review Review	511
Telephilately	512
Official Announcements	513

No. XI - NOVEMBER

	Page
Reprint of the first issue of the "Journal télégraphique"	
Editorial	518
Union activities	519
Conferences or meetings external to the ITU	528
Ideas and achievements	
• Magnetic «bubbles» may provide compact and inexpensive data processing for computers, switching systems	530
• The Bahrain earth station	531
• Antenna system Raisting II	532
Telecommunications in Brasil	
• J. M. NOGUEIRA RAMOS	534
From the «Journal télégraphique» to the «Telecommunication Journal», or one hundred years in the service of telecommunications	
• Mrs. G. PÉROTIN	537
The radio refractive index of the atmosphere in Indonesia	
• B. SUTANTO	542
ITU Cinema Library	547
Basic indices for ionospheric propagation	548
News	549
New Products	556
Books	557
Review Review	558
Telephilately	560

No. XII - DECEMBER

	Page
Editorial	566
Union Activities	569
Conferences or meetings external to the ITU	574
"Computers in telecommunications" (summary of the articles received from administrations and companies)	575
The Journal one hundred years ago	714
ITU Cinema Library	715
Basic indices for ionospheric propagation	716
News	717
New Products	725
Books	726
Review Review	726
Tenders (Kingdom of Morocco)	728
Official Announcements	729
ITU Publications	731
Recapitulatory table of the subjects dealt with in the articles "computers in telecommunications"	

(See next page for the summary of articles on "Computers in telecommunications")

Summary		page
ARGENTINA	Optimum location of special service concentrators L. M. GAROSELLI and R. E. SAMBADE	577
AUSTRALIA	I. Australian Post Office — Computer use in telecommunications II. The application of a computer to frequency spectrum management within a national administration E. L. BROOKER and P. D. GREY	593 599
CANADA	I. Use of computers by the Canadian Government Radio Regulations Broadcast Engineering Section II. Other applications	603 604
CUBA	Computers and telecommunications in developing countries J. HERNÁNDEZ HERNÁNDEZ	605
DENMARK	I. Telephone directories and electronics O. NIELSEN II. Management and control of telephone exchange equipment by computer M. S. HANSEN and V. O. GLUD	607 613
UNITED STATES	I. Telecommunications and electronic data processing G. C. GROSS II. Computer telex exchange I. GIVEN III. The "Apollo" communications network R. D. COOP and R. J. MALNATI	621 623 625
FRANCE	I. Use of computers in the French telecommunication services R. COSTE, L. CUMIN and D. VARLOOT II. Automation of the "MOTNE" telegraph network — The "CLIMAT" system P. HASSID III. Simulation of data transmission systems by means of a computer A. DESBLACHE	635 645 653
ITALY	Recording and processing of telephone traffic set up by direct dialling E. BATTINI	659
JAPAN	I. Use of computers in telecommunications II. NHK—"TOPICS" G. J. LISSANDRELLO and N. MII	665 667
NETHERLANDS	I.1 "ARGUS", a stored-programme-controlled system for integrated remote supervision and operation of telecommunication equipment D. van de NIEUWEGIESSEN I.2 Processor controlled automatic transmission measuring and signal testing equipment for international and intercontinental telephone circuits J. de GRANJE I.3 Processor operated "FLEX-ARQ" functions H. da SILVA II. Automation of telephone billing and bill collecting J. M. van OORSCHOT	672 676 679 682
PHILIPPINES	Applications of computers in telecommunications in the Republic of the Philippines	687
F. R. OF GERMANY	Data processing as an instrument of management in automatic telecommunication networks R. MEISEL	689
UNITED KINGDOM	Computers in the British Post Office J. A. RAYNER	691
SWEDEN	I. Introduction of computer-controlled exchanges in the Swedish telecommunications network B. FORSS II. The use of computers for administrative work in telecommunications administrations H. NILSSON	695 697
SWITZERLAND	I. "ATECO" — Automatic transmission of telegrams by computer F. KELLER II. Telephone rationalization by computer J. WETTSTEIN	700 704
TUNISIA	Present and future utilization of computers for telecommunications at the Secretariat of State for Posts, Telegraphs and Telephones, Tunis M. MOULDI	707
USSR	Automated management information systems — design problems N. I. VORONIN, N. I. KRASNOSSELSKI and A. M. SALNIKOV	711
